Quick, Safe Way to Remove Hairs

(Toilet Talks)
Keep a little delatone powder on your dressing table and when ugly, hairy growths appear, make a paste with a little of the powder and some water, apply and let remain on the hairy surface for 2 or 3 minutes, then rub off, wash the skin and the hairs have vanished. This treatment is quite harmless and rarely more than one application is required, but to avoid disappointment care should be used to buy the real delatone.

CROIX DE GUERRE TO SOLOH BORGLUM

The Croix de Guerre has been awarded to Solon H. Borglum, sculptor, and Y. M. C. A. worker at the front, and a brother of the sculptor, Gustav Borglum, who recently conducted an official investigation into American aircraft production, it was learned today at the New York offices of the National War Work Council of the Y. M. C. A. Mr. Borglum worked with the Foyers du Soldat which the Red Triangle maintains in the French army. Mr. Borglum was cited in the regimental orders of the 108th Regiment for Lieutenant Colonel Le Roy, commanding, on January 6 for his "devoted work to the French soldiers' welfare."

In a letter of congratulation, Colonel Le Roy was profuse in his praise of the services rendered the French soldiers by the Y. M. C. A. Solon Borglum is known principally for his equestrian works. He has made a special study of Western life, living among the cowboys and Indians as a part of his apprenticeship. He has executed no less than a dozen statues and busts of old war heroes for various cities of the South.

BELGIUM DEMANDS MORE TERRITORY

PARIS, Feb. 13.—Belgium's appeal to the supreme council of the peace conference for aid to enable her to become self-supporting again, says a special copyrighted wireless dispatch to the New York Sun today, will be a revelation to the many Americans who for four years have helped to feed and clothe the Belgians, and perhaps now have the idea that Belgium freed has become automatically her old self, an energetic, thrifty human being.

Belgium's demand for additional territory, including the duchy of Luxembourg and some small portions of Holland, is dated solely by a desire to make her frontiers safe. She maintains that the German violation of Belgium has shown clearly the futility of treaties guaranteeing neutrality, and she must have a strong frontier in the future. This does not indicate an abiding faith in the sufficiency of the league of nations, but it is the idea prevalent in Belgium today.

In Desperate Plight.
The truth is, as stated by the Belgian delegates, and amply backed up by reports received from Hoover's investigators and officers of the Ninety-first and Thirty-seventh divisions and the artillerymen of the Twentieth division, who helped to reconquer western Belgium and finally marched into Brussels, Belgium, is in desperate plight in two ways, economically and as regards morale.

Germans ruined her famous factories, which were the lifeblood of the nation. Before the war Belgium served as an outlet for German trade, which now is unwelcome, while the trade of Alsace-Lorraine now will go through France. Belgium is devoid of raw materials, except coal, and does not produce food enough for her people.

Worked as Slaves.
Four years of German rule has demoralized many of the Belgian people. Forced to work for taskmasters without reaping the fruit of their own labor, abused, oppressed, and dependent upon charity, they have lost the keen edge of energy and initiative which they had when working for themselves and are experiencing the relaxation that was inevitable, once the tension was ended. Their nerves are exhausted and they want rest, which is hardly conducive to prompt reconstruction.

PARIS, Feb. 13.—The Belgian claims placed before the supreme council include a demand for the return to Belgium of some territory held by Germany in addition to requests for free navigation of the Scheldt and the restitution of certain territory held by the Dutch. The German districts demanded are Montjoie and Malmédy, just east of the present Belgian-German border. The population of these districts is mainly Walloon, and their possession by Belgium, it was pointed out, would deprive Germany of an outlet for a new invasion of Belgium.

It is believed that a special commission will be appointed to study Belgian claims, as has been done in the consideration of other territorial problems.

CHARGED WITH TRADE BRIBES.
On charges of bribing employees of prospective customers, the Harrison Specialty Company, of New York, and the W. P. Wilkie Company, Inc., of Newport News, Va., have been cited to appear before the Federal Trade Commission, March 27 and 28.
